Testimonials for New Generation
PRIDE Blended Training

“Thank you for this wonderful training and the easy format. I like the sharing method so we can interact and communicate with each other. The training is AWESOME!!!”

“I like how short and informative the videos are, plus there’s the handouts to reference. I also like that it saves your place if you need to log out and come back later. Great setup!”

“There is so much information but the videos, interactive activities and questions help to really understand what you have learned. I am really thankful that this course is made up like this and we do not have to just read a book. I learn best when I can see it, hear it and write it!”

“I really have appreciated all the videos and handouts given in these training clusters. Things that I was feeling and had questions about I felt that the videos did a good job explaining it.”

“The information is very interesting and I like the different perspectives. It provides the resources, history, laws and evolution of the child welfare system. In many ways, the view is so layered and intense that it leaves very little room for speculation or questions. I love the amount of knowledge and types of information in the cluster because it really does open your eyes while preparing you for a very arduous but rewarding endeavor.”
